

Assignment 2 HTML/CSS

- Create a HTML page with proper head and body tags
 - The head tag should contain a page title using a <title> tag and a link to the style sheet
- Use a <h2> tag with your name and pawprint
- Use a <h1> tag for the title
- Use a correctly formatted boilerplate
- Create a List and a Table using the list tag and the <th> and <td> for the table.
- You need to make a paragraph with CSS applied. Use the Background color and assign a margin of 0, a Padding of 10px, and a border of 5px solid with your choice of color

You are going to create a web page document that tells about either your favorite sports teams or video games. List the sport and the team name in a list or video game and what system. Once you have to make a table that has either three favorite players and positions or for the video game three different npc and their role. The table should be 750px in width.

Give the web page a title with color other than black or white. The title should also have a background color of your choosing. You will also write a paragraph about what you like about the sport or the game. You will have a background color on the paragraph. The Margins will be 0, border 5 px solid and padding 10px. The paragraph will need to be lined up with the Table

Make the margins for the entire web page 10px

Use External CSS only
